

Summer 2024 Development of Course-Based Undergraduate Research Experience (CURE) Application

Deadline: March 25, 2024

Faculty Mentor Name:

Project Title:

Course Title:

 Please check if this is
 a new course

Semester CURE

 Course will be taught
 (can be tentative)

Faculty Applicant's Agreement:

Please review the information below. The stipend for CURE development is \$1250. The stipend will be awarded in two installments: half of the funds will be awarded at the end of the summer following course development and the other half of the funds will be awarded once the course has been taught and assessed. If you are proposing a CURE for an existing course, you would be expected to implement your CURE during the 2023-2024 academic year. For new courses, you have an additional academic year to incorporate the proposed CURE project. If you are able to meet *all* the requirements for the development of a CURE, please sign below:

1. Develop CURE as described in this proposal during Summer 2024.
2. Implement CURE proposal within the timeline proposed above.
3. Complete assessment report to the Director of Undergraduate Research (undergraduateresearch@berry.edu), no later than August 15 following the academic year in which the CURE was taught.
4. Mentor students in dissemination of CURE assignment during the Spring Student Symposium following the implementation of the CURE project.

Approval Number:

Project Description

Please complete the following questions with a description of the proposed project.

(1) Describe the design and purpose of the CURE project or assignment that includes how the students may be able to create new knowledge or creative contribution to the discipline.

(2) What are the student learning outcomes for the course and how does the CURE support those outcomes?

(3) What is the timeline of the project within the context of the course schedule?

(4) How might students disseminate their work?

(5) Do you have any plans to disseminate the project's results to a wider audience in your professional area (e.g., potential conference, possible publication, sharing with larger Berry College audience, etc.). If so, please describe.

PART II: Grant History

Please check if you are (check all that apply):

- Receiving a Faculty Development Summer Stipend for any project described in this application
- Receiving *external* funding that includes summer pay for any project described in this application
- Planning to teach in the 2024 Summer sessions. If so, what course(s) and which block(s)?
Teaching does NOT disqualify you from receiving this stipend.

Please check if you have (check all that apply):

- Mentored students in the SURF program previously
- Received the CURE summer stipend
